

INDEX TO VOLUME 38

AUTHORS INDEX

A

- ADELSTEIN, CHARLES S. Orthodontic and surgical correction of a Class III malocclusion, 704
 —. Supernumerary tooth in the anterior section of the maxilla, 709
 ANDERSON, GEORGE M. The activities that mark and make a profession and achievements that aid it to meet the demands of the day, 588

B

- BACKOFEN, W. A., AND GALES, G. F. Heat treating stainless steel for orthodontics, 755
 BARICH, FREDERICK T. Treatment in the mixed dentition period, 625
 BEDELL, WALTER R. Treatment of bimaxillary protraction cases with only the twin and flat wire appliances and also in conjunction with removable anchorage, 538
 BERGER, H. Twenty-five years' experience with the zygomatic method, 369
 BRAUER, JOHN C. Status of the dental specialist, 435
 —. The teaching of orthodontics; relation to dentistry for children, 25
 BRODIE, ALLAN G. Consideration of musculature in diagnosis, treatment, and retention, 823
 —. The teaching of orthodontics, 7
 BROUSSEAU, JAMES C. Bilateral Class II, Division 1 malocclusion, 636
 —. Bilateral Class II, Division 1 malocclusion treated with an occlusal guide plane, 444
 BURKS, ARTHUR J. The Victor Club, 289
 BURSON, CURTIS E. A study of individual variation in mandibular bicanine dimension during growth, 848

C

- CAREY, C. W. Diagnosis and case analysis in orthodontics, 149
 CHENEY, EDWARD A. The influence of dentofacial asymmetries upon treatment procedures, 934
 —. (See Shehan and Cheney), 779

D

- DEVRIES, BERNARD G. Organization responsibilities of orthodontists, 264
 —. President's address, American Association of Orthodontists, 811
 DOWNS, WILLIAM B. The role of cephalometrics in orthodontic case analysis and diagnosis, 162
 DUNN, P. M. President's address, Central Section of the American Association of Orthodontists, 233
 DUYZINGS, J. A. C. A typical view of European orthodontics, 272

E

- EGGERS LURA, H. Tissue reactions of bone upon mechanical stresses, 453
 ELLIS, ROY G. The teaching of orthodontics; relation to diagnosis, 30

F

- FINGEROTH, A. I. Cephalometric x-ray tracing utility table, 634
 FRANKLIN, JACOB B. Certain factors of aberration to be considered in clinical roentgenographic cephalometry, 351
 FURSTMAN, LAWRENCE. Four congenitally missing canines, 449

G

- GALES, G. F. (See Backofen and Gales), 755
 GRABER, T. M. New horizons in case analysis—clinical cephalometrics, 603

H

- HAYES, MICHAEL A. Legal aspects of orthodontic practices, 766
 HERZBERG, B. L. The application of the edgewise arch mechanism to the Tweed philosophy in orthodontics, 506
 —. The mechanical therapy employed in following the Tweed philosophy in orthodontics, 237

- HIGLEY, L. B. Practical cephalometrics, 548
 HOPKINS, STEPHEN C. The present status of the American Board of Orthodontics, 552
 HOWES, ASHLEY E. Model analysis for treatment planning, 183
 HUCKABA, GEORGE W. The physiologic basis of relapse, 335

J

- JACKSON, ANDREW F. Orthodontic "growing pains," 485
 JACOBSON, OSCAR. Clinical significance of root resorption, 687
 JAYNES, HERBERT D. Cleft palate; report of a case, 285
 JOHNSON, JOSEPH E. President's address, American Association of Orthodontists, 147

K

- KLEIN, ERNEST T. Pressure habits, etiological factors in malocclusion, 569

L

- LADOW, CLAUDE S. The oral surgeon's role in management of unerupted teeth, 521
 LITTLEFIELD, W. H. Thumb-sucking and its relationship to malocclusion in children, 293
 LOUGHLIN, FRANCIS J. Aims, aids, and auxiliaries, 315

M

- MARGOLIS, HERBERT I. (See Prakash and Margolis), 657
 MEYERS, MILTON J. Protection of enamel under orthodontic bands, 866
 MILLER, SAMUEL CHARLES. The teaching of orthodontics; relation to periodontics, 26
 MOORE, GEORGE R. Teaching orthodontics to undergraduate dental students, 15

N

- NELSON, BEULAH G. What does extraoral anchorage accomplish? 422

O

- OLIVER, OREN A. A partial history of the Southern Society of Orthodontists, 909
 OLIVER, WILLIAM H. Practical labiolingual application, 697
 OSBORN, DONALD D. Removal of a lower incisor, 843

P

- PETERSON, HOWARD W. Treatment of a Class II, Division 2 case in which the reduction of tooth material was indicated, 773
 PRAKASH, PREM, AND MARGOLIS, HERBERT I. Dento-craniofacial relations in varying degrees of overbite, 657

R

- RICKETTS, ROBERT MURRAY. A study of changes in temporomandibular relations associated with the treatment of Class II malocclusion (Angle), 918
 ROTHNER, JACOB T. Occlusal equilibration—a part of orthodontic treatment, 530

S

- SALZMANN, J. A., AND WEIN, STANLEY L. Dental correlation in pituitary dwarfism, 674
 SHEHAN, HARLOW L., AND CHENEY, EDWARD A. Objectives and treatment in the mixed dentition, 779
 SLOMAN, ERNEST G. The teaching of orthodontics; relation to administration of a dental school, 31
 SLY, WALTER J. Synchronizing treatment with development, 893
 SQUIRES, FRANKLIN A. Address by the chairman of the New York State Advisory Committee on Orthodontics, 543
 STRANG, ROBERT H. W. Factors associated with successful orthodontic treatment, 790
 STRAYER, EDWARD RAY. Procedures for case evaluation and analysis, 737
 SVED, ALEXANDER. The application of engineering methods to orthodontics, 399

V

- VEDDER, FRANCIS B. The teaching of orthodontics; relation to restorative dentistry, 28

W

- WAUGH, LEUMAN M. The American Association of Orthodontists, 75
 WEIN, STANLEY L. (See Salzmann and Wein), 674
 WYLIE, WENDELL L. Present beliefs in the practicability of cephalometric studies in individual case analysis, prognosis, and treatment, 836

SUBJECT INDEX

A

- Aberration, certain factors of, to be considered in clinical roentgenographic cephalometry, 351
- Abnormal and normal forms, correlation of; application of engineering methods to orthodontics, 408
 - normality in; twenty-five years' experience with zygomatic method, 378
- Abnormalities; new horizons in case analysis—clinical cephalometrics, 605
- Age, skeletal, tables for predicting adult height from: revised for use with Greulich-Pyle hand standards, 949 (Abst.)
- Aids, aims, and auxiliaries, 315
- Air Force dental chief, retiring, receives additional award, 735
- American Academy of Oral Pathology, 70
 - Association for Cleft Palate Rehabilitation, 230
 - of Dental Schools, proceedings of Twenty-sixth Annual Meeting, 6
 - of Twenty-seventh Annual Meeting, 42
 - of Orthodontists, 225, 305, 807, 883, 965
 - Central Section of, 68, 310, 480, 565, 653, 728, 966
 - excerpt from minutes of, 307, 395, 482
 - Ladies' Entertainment Committee, 477
 - meeting of, 1952, 65, 138
 - president's address, 147, 811
 - prize essay contest, 68, 143, 227, 965
 - program of, 1952, 467
 - report of Committee on Education, 1951, 46
 - to Board of Directors, 1
 - of Military Affairs Committee, 1951-1952, 722
 - research section meeting of, 67, 143, 227
 - review of first half century, 75
 - Board of Orthodontics, 67, 143, 228, 307, 477, 565, 640, 653, 728, 807, 883, 965
 - present status of, 552
 - Dental Association, 229, 313, 566, 889
 - orthodontists honored, 888
- Anchorage, extraoral, what does it accomplish? 422
 - removable, treatment of bimaxillary protraction cases with only twin and flat wire appliances and also in conjunction with, 538

- "Anesthesia throat"; pressure habits, etiological factors in malocclusion, 578
- Announcement to future essayists, 71, 309, 482, 733, 890
- Anomaly, congenital, of offspring; illness in first trimester of pregnancy, lack of significance in relation to, and to full-term pregnancy, prematurity, and stillbirth, 135 (Abst.)
- Anthropology, physical, genetics and, 302 (Abst.)
- Appearance, your mind and, psychological approach to plastic surgery, 303 (B. rev.)
- Appliance for intermittent pressure, headcap and; what does extraoral anchorage accomplish? 425
- Appliances, twin and flat wire, only, treatment of bimaxillary protraction cases with, and also in conjunction with removable anchorage, 538
- Arch length, extraoral anchorage for decrease of; what does extraoral anchorage accomplish? 426
 - increase of; what does extraoral anchorage accomplish? 425
- mechanism, edgewise, application of, to Tweed philosophy in orthodontics, 506
- Arches, basal, size and form of; model analysis for treatment planning, 183
- Armamentarium; procedures for case evaluation and analysis, 748
- Army hospitals, seven new permanent, to provide capacity for 3,200 patients, 734
 - Medical Service reports, 500 certified specialists on duty, 311
- Asymmetries, dentofacial, influence of, upon treatment procedures, 934
- Atkinson, Spencer R., is honored, 566
- Australian Society of Orthodontists (Victorian Branch), 230
- Auxiliaries, aims, aids, and, 315

B

- Bands, orthodontic, protection of enamel under, 866
- Bicanine dimension, mandibular, study of individual variation in, during growth, 848
- Bone, tissue reactions of, upon mechanical stresses, 453

- Bones, growth of: methods of assessing and clinical importance, 878 (Abst.)
- British Society for Study of Orthodontics, 230
- C
- Canines and incisors; oral surgeon's role in management of unerupted teeth, 525
- deciduous, increment in mandibular bicanine dimension from three years prior to eruption of permanent lower central incisors to loss of; study of individual variation in mandibular bicanine dimension during growth, 855
- four congenitally missing, 449
- lower permanent, changes in mandibular bicanine dimension during two years subsequent to eruption of; study of individual variation in mandibular bicanine dimension during growth, 862
- total increase of lower bicanine dimension from three years prior to eruption of permanent lower central incisors to two years subsequent to eruption of; study of individual variation in mandibular bicanine dimension during growth, 863
- transition period from deciduous to permanent; study of individual variation in mandibular bicanine dimension during growth, 858
- Caries, dental, selenium and; investigation among school children of Oregon, 726 (Abst.)
- Case analysis and diagnosis, orthodontic, role of cephalometrics in, 162
- and treatment planning, portion of symposium on; model analysis for treatment planning, 183
- diagnosis and, in orthodontics, 149
- new horizons in—clinical cephalometrics, 603
- prognosis, and treatment, individual, present beliefs in practicability of cephalometric studies in, 836
- evaluation and analysis, procedures for, 737
- Cement, dental, composition of; protection of enamel under orthodontic bands, 868
- Central Section of American Association of Orthodontists, 68, 310, 480, 565, 653, 728, 966
- president's address, 233
- Cephalometric studies in individual case analysis, prognosis, and treatment, present beliefs in practicability of, 836
- x-ray tracing utility table, 634
- Cephalometrics, clinical, new horizons in case analysis, 603
- practical, 548
- role of, in orthodontic case analysis and diagnosis, 162
- Cephalometry, clinical roentgenographic, certain factors of aberration to be considered in, 351
- Certification on state and national level; status of dental specialist, 440
- Chicago Association of Orthodontists, 70
- school children, suburban, occurrence of gingivitis in, 559 (Abst.)
- Children, calculation of "normal" weight in (by means of nomograms based on selected anthropometric measurements), 218 (Abst.)
- malocclusion in, thumb-sucking and its relationship to, 293
- modern trends in orthodontic treatment in, 462 (B. rev.)
- suburban Chicago, school, occurrence of gingivitis in, 559 (Abst.)
- teaching of orthodontics, relation to dentistry for; proceedings of Twenty-sixth Annual Meeting of American Association of Dental Schools, 25
- Children's Bureau, Federal Security Agency, 654
- Chin propping habit; pressure habits, etiological factors in malocclusion, 580
- Cincinnati Dental Society, 144
- Class II, Division 1 malocclusion, bilateral, 636
- 2 case in which reduction of tooth material was indicated, treatment of, 773
- III malocclusion, orthodontic and surgical correction of, 704
- Cleft palate, 285
- Rehabilitation, American Association for, 230
- Clinical cephalometrics, new horizons in case analysis, 603
- roentgenographic cephalometry, certain factors of aberration to be considered in, 351
- significance of root resorption, 687
- Condylar growth, amount of; study of changes in temporomandibular relations associated with treatment of Class II malocclusion (Angle), 924
- Cooper, Dr. Herbert K., guest lecturer, spoke at National Naval Medical Center, 397
- Council on Dental Education; status of dental specialist, 436
- D
- Deformity, dental, psycho-somatic study into nature, prevention and treatment of, thumb-sucking, and its relationship to, 384 (Abst.)

- Dental correlation in pituitary dwarfism, 674
 Medicine, Seminar for Study and Practice of, 567, 654, 732, 809
 specialist, status of, 435
 Dentistry, honoring two noblemen of, 970
 Dentition, mixed, objectives and treatment in, 779
 period, mixed, treatment in, 625
 Dento-craniofacial relations in varying degrees of overbite, 657
 Dentofacial asymmetries, influence of, upon treatment procedures, 934
 Denture analysis; new horizons in case analysis—clinical cephalometrics, 612
 changes; study of changes in temporo-mandibular relations associated with treatment of Class II malocclusion (Angle), 923
 Denver Summer Seminar, 654
 for Advanced Study of Orthodontics, 396, 483, 565
 for Advancement of Orthodontic Practice and Research, 885
 Development, growth and, conditions during period of; twenty-five years' experience with zygomatic method, 371
 synchronizing treatment with, 893
 Developmental appraisal, growth and; new horizons in case analysis—clinical cephalometrics, 604
 Diagnosis and case analysis in orthodontics, 149
 treatment, and retention, consideration of musculature in, 823
 District of Columbia Dental Society, twentieth annual postgraduate clinic of, 145
 Dwarfism, pituitary, dental correlation in, 674
 Dynamic analysis; role of cephalometrics in orthodontic case analysis and diagnosis, 173
- E
- Edgewise arch mechanism, application of, to Tweed philosophy in orthodontics, 506
 Education; activities that mark and make profession, and achievements that aid it to meet demands of day, 589
 Committee; organization responsibilities of orthodontists, 265
 report of Committee on, American Association of Orthodontists, 1951, 46
 to Board of Directors, American Association of Orthodontists, 1
 Enamel, protection of, under orthodontic bands, 866
 Engineering methods, application of, to orthodontics, 399
 Equilibration, occlusal—part of orthodontic treatment, 530
- Essayists, future, announcement to, 71, 309, 482, 733, 890
 European Orthodontic Society, 310, 395, 483, 653, 730
 orthodontics, typical view of, 272
 Evaluation and analysis, case, procedures for, 737
 Extraction in orthodontics; typical view of European orthodontics, 282
 Extractions, six-year molar, on sequence of, 725 (Abst.)
- F
- Face leaning; pressure habits, etiological factors in malocclusion, 581
 Facial and skeletal type, general; new horizons in case analysis—clinical cephalometrics, 606
 Morphology, International Club, of, 311
 pattern, discussion on significance of growth changes in, and their relationship to changes in occlusion, 802 (Abst.)
 Federal Security Agency, Children's Bureau, 654
 Social Security Administration, Children's Bureau, 231
 Trade Commission, negotiations with counsel of, 887
 Flat wire appliances, twin and, only, treatment of bimaxillary protraction cases with, and also in conjunction with removable anchorage, 538
 Florida Orthodontic Study Group, 310
 Focal-film distance; certain factors of aberration to be considered in clinical roentgenographic cephalometry, 356
 Form, growth and; editorial, 724 (Abst.)
 French Society of Dentofacial Orthodontia, 311
- G
- Genetics and physical anthropology, 302 (Abst.)
 Gingivitis, occurrence of, in suburban Chicago school children, 559 (Abst.)
 Graduate courses in orthodontic departments, announcements of, 483
 Great Lakes Society of Orthodontists, 228, 728, 807, 883
 Greulich-Pyle hand standards, tables for predicting adult height from skeletal age revised for use with, 949 (Abst.)
 "Growing pains," orthodontic, 485
 Growth and development, conditions during period of; twenty-five years' experience with zygomatic method, 371
 and developmental appraisal; new horizons in case analysis—clinical cephalometrics, 604

Growth—Cont'd

- and form; editorial, 724 (Abst.)
- changes, discussion on significance of, in facial pattern and their relationship to changes in occlusion, 802 (Abst.)
- direction of; study of changes in temporomandibular relations associated with treatment of Class II malocclusion (Angle), 924
- of bones: methods of assessing and clinical importance, 878 (Abst.)
- study of individual variation in mandibular bicanine dimension during, 848
- Guide plane, occlusal, bilateral Class II, Division 1 malocclusion treated with, 444

H

- Habits, pressure, etiological factors in malocclusion, 569
- Headcap and appliance for intermittent pressure; what does extraoral anchorage accomplish? 425
- Heat treating stainless steel for orthodontics, 755
- Height, adult, tables for predicting, from skeletal age: revised for use with Greulich-Pyle hand standards, 949 (Abst.)
- Historical background; what does extraoral anchorage accomplish? 422
- History, partial, of Southern Society of Orthodontists, 909

I

- In memoriam. Charles Mervyn Alderson, 217
- M. Don Clawson, 212
- Sidney Blaine Hoskin, 946
- James D. Locke, 801
- George R. Moore, 382
- John Edgar Richmond, 946
- Ernest Gaynor Sloman, 721
- Edward Ray Strayer, 215
- William Oliver Talbot, 947
- Kirman E. Taylor, 301
- Abraham Wolfson, 947
- Incisor, lower, removal of, 843
- Incisors, canines and; oral surgeon's role in management of unerupted teeth, 525
- permanent lower central, increment in mandibular bicanine dimension from three years prior to eruption of, to loss of deciduous canines; study of individual variation in mandibular bicanine dimension during growth, 855

Incisors, permanent lower central—Cont'd

- total increase of lower bicanine dimension from three years prior to eruption of, to two years subsequent to eruption of lower permanent canines; study of individual variation in mandibular bicanine dimension during growth, 863
- International Club of Facial Morphology, 311
- Interrelations Committee; organization responsibilities of orthodontists, 268
- Iowa Orthodontic Study Club, 653
- Israel Orthodontic Society, 886
- Izard's method; twenty-five years' experience with zygomatic method, 375

J

- Joint function, changes in; study of changes in temporomandibular relations associated with treatment of Class II malocclusion (Angle), 923
- temporomandibular, 876 (B. rev.)

K

- Ketcham, Albert H., memorial award, 1952, remarks on presentation of, by Stephen C. Hopkins, President of American Board of Orthodontics, 713
- response by James David McCoy to presentation of, 717
- Korea, Navy mobile dental clinic now operating in, 733

L

- Labiolingual application, practical, 697
- postgraduate course, 396
- Legal aspects of orthodontic practices, 766
- Lower incisor, removal of, 843

M

- McCoy, Dr. James D., honored, 65
- Malocclusion, bilateral Class II, Division 1, 636
- treated with occlusal guide plane, 444
- Class II (Angle), study of changes in temporomandibular relations associated with treatment of, 918
- III, orthodontic and surgical correction of, 704
- in children, thumb-sucking and its relationship to, 293
- pressure habits, etiological factors in, 569

Mandible, extraneous pressure habits affect; pressure habits, etiological factors in malocclusion, 582

Mandibular arches, maxillary and, interrelationship of, to each other; model analysis for treatment planning, 202

 bicanine dimension during growth, study of individual variation in, 848

Maxilla, supernumerary tooth in anterior section of, 709

Maxillary and mandibular arches, interrelationship of, to each other; model analysis for treatment planning, 202

 first molar, mesiobuccal root of, 642 (Abst.)

Mechanical devices used for correction of abnormalities, study of; application of engineering methods to orthodontics, 412

 stresses, tissue reactions of bone upon, 453

 therapy employed in following Tweed philosophy in orthodontics, 237

Mechanism, edgewise arch, application of, to Tweed philosophy in orthodontics, 506

Medicine, Dental, Seminar for Study and Practice of, 567, 654, 732, 809

Mexican orthodontists elect officers for 1952-1953, 396

Middle Atlantic Society of Orthodontists, 480, 565

 holds first meeting, 69

Migration, physiological tooth, and its significance for development of occlusion; III. biogenesis of successional dentition, 53 (Abst.)

 IV. biogenesis of overbite, 59 (Abst.)

Military Affairs Committee, American Association of Orthodontists, 1951-1952, report of, 722

Mind and appearance, your, psychological approach to plastic surgery, 303 (B. rev.)

Mixed dentition, objectives and treatment in, 779

 period, treatment in, 625

Model analysis for treatment planning, 183

Molar extractions, six-year, on sequence of, 725 (Abst.)

 maxillary first, mesiobuccal root of, 642 (Abst.)

 third, unerupted; oral surgeon's role in management of unerupted teeth, 521

Movement, orthodontic tooth, tissue response to; physiologic basis of relapse, 338

Musculature, consideration of, in diagnosis, treatment, and retention, 823

N

Navy Bureau of Medicine and Surgery for Dentistry, assistant chief of, retires, 231

Dental Corps observes fortieth anniversary of establishment of Naval Dental Service, 889

mobile dental clinic now operating in Korea, 733

New York State Advisory Committee on Orthodontics, address by chairman of, 543

 University College of Dentistry, 970

News and Notes, 65, 138, 225, 305, 395, 467, 565, 653, 728, 807, 883, 965

Normal form, study of; application of engineering methods to orthodontics, 400

 forms, abnormal and; application of engineering methods to orthodontics, 408

Normality in abnormal; twenty-five years' experience with zygomatic method, 378

Northeastern Society of Orthodontists, 70, 144, 480, 565, 653, 728, 808

Northwestern University Dental School, 483

Notes of interest, 71, 145, 231, 313, 397, 483, 567, 655, 735, 809, 891, 971

O

Occlusal equilibration—part of orthodontic treatment, 530

 guide plane, bilateral Class II, Division 1 malocclusion treated with, 444

Occlusion, discussion on significance of growth changes in facial pattern and their relationship to changes in, 802 (Abst.)

 physiological tooth migration and its significance for development of; III. biogenesis of successional dentition, 53 (Abst.)

 IV. biogenesis of overbite, 59 (Abst.)

Officers of orthodontic societies, 72, 146, 232, 314, 398, 483, 568, 656, 736, 810, 892, 972

Oral surgeon's role in management of unerupted teeth, 521

Oregon, investigation among school children of; selenium and dental caries, 726 (Abst.)

Organization responsibilities of orthodontists, 264

Orthodontic and surgical correction of Class III malocclusion, 704

 bands, protection of enamel under, 866

 case analysis and diagnosis, role of cephalometrics in, 162

 "growing pains," 485

 practices, legal aspects of, 766

 societies of world and principal officers, 73

 treatment, 465 (Abst.)

 in children, modern trends in, 462 (B. rev.)

- Orthodontic treatment—Cont'd
 occlusal equilibration—part of, 530
 successful, factors associated with, 790
